

# *Quilted Wall Pocket*

## Front

- 1 Draft your own pattern pieces or use these.
- 2 Cut one back panel and one front panel from quilted fabric.
- 3 Bind top edges of both panels.
- 4 Place panels together with both right sides facing you and join side and bottom edges with a narrow seam.
- 5 Bind the three raw edges.
- 6 Embellish the front of the vase as desired. I used leaf shapes cut from an old quilt. I painted the edges of the cut shapes with acrylic paint and added beads with a blanket stitch once the paint was dry.
- 7 Attach a curtain ring to the centre back for hanging.
- 8 Thread a wooden skewer through the back panel binding if support is needed.
- 9 Fill with dried flowers or seed heads and admire!
